### ASSORTMENT

Includes hand tool, nosepiece wrench, and conversion kits (nosepiece and mandrel) for following sizes: 6-32, 8-32, 10-24, 1/4-20, 5/16-18 and a mandrel only for size 10-32. Use the 10-24 nosepiece for 10-32.

- Can be use in wide range of applications and are designed to provide a very efficient and cost-effective method of placing permanent threads in thin materials.
- Perfect for use in metal, fiberglass and rigid plastic previously too thin for tapped threads
- Provide a nearly flush appearance and once in place, the internal threads are ready for a screw or bolt.
- Lightweight tooling assures easy installation by the operator and reduces costs when compared with other methods.
- Provide permanent, captive threads that resist high loads, do not allow loosening under vibration and will not rotate when attached to the mating material.
- Zinc Plated Steel offers excellent corrosion resistance
