WIRE CUP BRUSHES

DESIGNED FOR USE ON LARGE FLAT SURFACES
SUCH AS TANKS, BOILERS AND STRUCTURAL STEEL

- CRIMPED TEMPERED WIRE
- Provides fast cutting action for the removal of light encrustations of scale, rust, paint or weld spatter. High flexibility allows cleaning on irregular surfaces.
- High flexibility allows cleaning on irregular surfaces as well as flat surfaces
- Excellent for general industrial usage

<u>PART #</u>	<u>DESCRIPTION</u>	<u>PACK</u>
M46-225080	4" CUP BRUSH 5/8-11 ARBOR	(B)
M46-225084	5" CUP BRUSH 5/8-11 ARBOR	(B)

- KNOTTED WIRE
- Provide fast cleaning action on large surfaces such as those found in the fabrication of tanks, pressure vessels and other plate steel forms
- Used in weld cleaning, deburring and removal of heavy encrustations
- Knot type assures excellent balance permitting high speed operation

<u>PART #</u>	<u>DESCRIPTION</u>	<u>PACK</u>
M46-225088	4" X 5/8-11 KNOTTED CUP BRUSH	(B)
M46-225092	6" X 5/8-11 KNOTTED CUP BRUSH	(B)
